Educational Program

The School Board of Lee County believes that the education program in the School District of Lee County should serve all students. The Board affirms that:

- (1) All students shall benefits from individualized educational services.
- (2) Schools shall be places for students to develop their knowledge, skills, character and talents.
- (3) Educational programs shall identify the level of services provided.
- (4) Schools shall be places that foster a sense of belonging for all students.

In order to meet the individual educational needs of students, public schools in Lee County shall be encouraged to be unique in their delivery of services and programs. Therefore, within the parameters of the Student Assignment Plan, families and students should select a school that best meets their educational goals.
